SAYS HOT WATER WASHES POISONS FROM THE LIVER

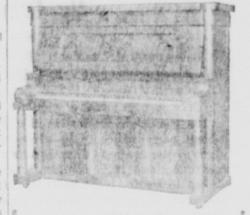

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbla fiddle, we must keep the liver washe clean, almost every morning, to prevent its sponge-like pores from clos ging with indigestible material, so bile and poisonous toxins, says a noted

physician.
If you get headaches, it's your liver If you catch cold easily, it's your live If you wake up with a bad taste, furre tongue, nasty breath or stomach be-comes rancid, it's your liver. Sallow skin, muddy complexion, watery eye all denote liver uncleanliness. liver is the most important, also the must abused and neglected organ of Buy their Oil and Gasoline from the the body. Few know its function of how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can. only be used occasionally because Phone 525-L it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phos phate in it, to wash from the liver and howels the previous day's indigestible material, the poisons, sour bile and Phones: N. W. 613-L; Minn 6641 toxins; thus clearsing, sweetening and freshening the entire alimentary canal before putting more food into the stomach

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound , which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

Ruddy Cheeks-Sparkling Eyes -Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look,

dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly

for a time and note the pleasing results. Thousands of women as well as men take Dr. Edwards' Olive Tablets-the successful substitute for calomel-now and then just to keep in the pink of condition, 10c and 25c per box, All druggists.

Fell by the Wayside.

Lancashire. England, got together and resolved to march up to London and iay their grievances before the prince regent. As it was quite a way to London, each took a blanket along to wrap about him at night. About 5,000 made the start. One eyewitness described the marchers as "a most deplorable lot, without food and without organization." Scarcely had they begun to move when they were attacked by the military and partially dispersed. Some kept on, but the desertions became more and more frequent. By the time the marching column reached the outskirts of London it had dwindled to six persons. Not one saw the prince.

Fell by the Wayside. In 1817 the dissatisfied weavers of Lancashire, England, got together and resolved to march up to London and tay their grievances before the prince regent. As it was quite a way to London, each took a blanket along to wrap about him at night. About 5,000 made the start. One eyewitness described the marchers as "a most deplorable lot, without food and without organization." Scarcely had they begun to move when they were attacked by the military and partially dispersed. Some kept on, but the desertions became more and more frequent. By the time the marching column reached the outskirts of London it had dwindled to six persons. Not one saw the prince.

An Englishman has developed a method for growing lawn grass on such a foundation that it can be handled as a carpet or rug.
